

## KEY INFORMATION FOR INVESTORS

This document contains the key information on this fund that investors should be aware of. The information is not intended for promotional or commercial purposes. This information is required by law to help investors understand the nature of the fund and the associated risks of investing in it.

**CLASS M** share in the fund **MAGALLANES EUROPEAN EQUITY FI** (ISIN code: ES0159259011)

**Fund registration no. with the Spanish CNMV:** 4841

**Fund Manager:** MAGALLANES VALUE INVESTORS, S.A., SGIIC (Group: MAGALLANES VALUE INVESTORS)

### Investment objectives and policy

**The fund belongs to the category:** Investment fund. INTERNATIONAL EQUITIES.

**Management target:** Fund management tracks the returns of the MSCI Total Return Net Europe index.

**Investment policy:** At least 75% of total exposure will be invested in equities, with European issuers to account for at least 75% of exposure to equities. The remaining exposure to equities may be invested in issuers from other OECD member countries, while 10% of this may be invested in the securities of issuers from emerging countries. Issuers may be high, medium or low capitalisation companies. The fund will invest in companies showing mid- to long-term upturn potential. The remaining 25% of the total exposure will be invested in the fixed-income securities of public or private issuers (including liquid deposits and money market instruments, whether or not listed). Issuers will mainly be from eurozone countries, without ruling out other OECD nations. Private fixed income will not include securitisations. The credit rating of fixed-income issues must, at all times, match or exceed that of the Kingdom of Spain. If an issue has no rating, the issuer's rating will be relied on instead. The average duration of the fixed-income portfolio will range from 0 to 18 months.

Exposure to currency risk may not exceed 50%.

Signature fund, managed by Ivan Martin Aranguéz and closely linked to manager performance. Replacement of the manager would entail a change of investment policy and approach to risk control.

More than 35% of fund capital may be invested in the securities of an EU Member State, an Autonomous Region of Spain, a local public entity, the international bodies of which Spain is a member, and any state whose solvency rating is not lower than Spain's own. This is an accumulation-based investment, meaning the returns obtained are reinvested. Fund members may subscribe and redeem their shares daily.

**If you wish to subscribe or redeem shares,** the applicable net asset value (NAV) will be taken on the day your application is made. However, orders placed after 13:00 or on non-business days will be processed along with the orders for the immediately following business day. Fund promoters may establish cut-off times before 13:00.

**Important note:** The fund may not be suited to investors looking to withdraw their money within five years.

**Target investor group:** All investors that do not meet the eligibility requirements for the other classes.

### Risk profile and remuneration

<-- Potentially lower returns      Potentially higher returns -->      Category "1" does not mean that the investment is

<-- Less risk      Greater risk -->      risk-free.

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The above information indicates the fund's risk level and is calculated on the basis of simulated data, which may not necessarily provide a reliable indication of the fund's future risk profile. Please also note that there is no guarantee the above category will always remain the same as it may vary over time.

**Why this category?** Due to high exposure to equities and currency risk.

### Expenses

The following expenses are to meet the cost of operating the fund, including marketing and distribution costs. These expenses limit the growth potential of the investment.

Expenses charged to the fund during the year
